

Toronto Pearson International Airport Taxicab and Limousine Tariff Increases

Please note: The Taxicab and Limousine Tariff increase notice that appeared on June 20 contained an incorrect figure. Below is the corrected notice.

Working with the Pearson Airport Consultative Committee on Taxicabs and Limousines, the Greater Toronto Airports Authority hereby provides 60 days public notice of increases in the Pearson Airport Taxicab and Limousine Tariffs ("Tariffs"). The following Tariff increases will come into effect on August 24, 2008. The Tariffs for each zone will increase by a weighted average of approximately 10 per cent to reflect general inflationary increases since the Tariffs were last increased on May 1, 2006. In addition,

Average 90-day fuel price (litre of regular gasoline)	Fuel surcharge (maximum per trip)
\$0.50 - \$0.90	\$0.00
\$0.91 - \$1.19	\$1.00
\$1.20 - \$1.39	\$2.00
\$1.40 - \$1.59	\$3.00
\$1.60 - \$1.79	\$4.00
\$1.80 - \$2.00	\$5.00

to address escalating costs to the industry's members due to significant and sustained increases in fuel prices, Pearson Airport Taxicab and Limousine operators may charge, on a per trip basis, a fuel surcharge – as provided in the accompanying chart – based on the average price per litre of regular gasoline over successive 90-day periods.
